WIEGAND - FROM THE IDEA TO THE WORLD MARKET LEADER

The summer toboggan run that we have built since 1975 laid the foundation for our almost 50 years of success.

A success from which you also benefit from our experience and competence in our other product ranges.

saving and efficient storage of
the Coaster sleds.

Safety first! With the new
belt systems and brake lights
you are safe on the track.

MADE IN
GERMANY

With rain hoods,
the passengers are protected
even in bad weather.

ALPINE COASTER

THE PREMIUM CLASS AMONG THE ALL-WEATHER TOBOGGAN RUNS

According to over 500 systems sold, the new model stands for more comfort, more security and many future -oriented features. This means, for example, more space for two people in the highly ergonomically designed seat shell as well as two

independent magnetic brakes for the functions of speed limitation, distance control and active passenger brake- and the intensity and wear-free. Each sled is now custom-designed individually to your requirements.
